2. The other party is required to check the materials (in terms of number, condition, etc.) at the time of delivery. If the other party wishes to make a complaint about materials (only in the event of a deviating delivery), the other party needs to make this known at the time of delivery, by making a note of the complaint and the reason of the complaint on the receipt.

3. Any complaint that has not been made known as described in 6.2 will not be taken into consideration.

4. In view of the nature of the materials, the other party is not entitled to make a complaint if the material is subject to minor colour and quality differences.
